

# Deka READY POWER GEL

## Deka Ready Power Gel – The Perfect Bridge Between Flooded and Lithium

Uniquely manufactured using new advanced Flo-Gel™ filling and circulation technology (a new way we create the battery), and designed to leverage the Deka PowerForce charger and smart technology, Deka Ready Power Gel batteries are ready to handle the ever changing demands of your warehouse and ideal for light and medium duty Partial State-of-Charge (PSOC) applications.

- Continued Maintenance-Free Reliability
- Overall Deeper Discharge Resiliency (discharge to 80% capacity gives you more output)
- Sealed Design Requires No Watering
- Supports Sustainability Goals and is Virtually 100% Recyclable

### Optimize Battery Performance with Smart Charger Management

Our exclusive and proprietary smart device paired with the Deka Ready Power Gel guarantees to optimize the performance and life of your battery fleet. It features constant monitoring for both energy input and output throughout the shift as well as smart charger management to truly get the best productivity.

### What makes the improved Deka Ready Power Gel better?

- Advanced Flo-Gel design and manufacturing process
- Outperforms AGM Pure Lead technology by 15%  
Performs to 1,800 cycles at 50% DOD and can be discharged to 80% DOD
- Perform in multi shift opportunity charge applications when paired with the Deka Power Force charger and battery management system
- Backed by the best-in-class service capabilities of the Deka network

# READY POWER GEL

## Intelligent Design Delivers More Productivity

Uniquely manufactured using our advanced Flo-Gel™ filling and circulation technology, and designed to leverage the Deka PowerForce charger and smart technology, Deka Ready Power Gel batteries are ready to handle the ever changing demands of your warehouse workflow.

**Fast, and  
Opportunity Charging**  
Charge batteries 25-30% faster.

**Longer Life**  
Advanced Flo-Gel™ design and manufacturing process delivers up to 50% longer cycle life.

**Maintenance-Free**  
Unique, valve sealed design is more durable and reliable – reducing labor costs.

**Cleaner and Safer**  
No watering required means no leaks or spills – increasing cleanliness and safety.

**More Sustainable**  
Lead gel and battery components are 100% recyclable.

**Smarter**  
Every battery comes with a smart device to monitor and optimize performance.\*

\* Excludes 5-7 plate models

## Deka Network – Only a call away

Fully backed by on-time product, service, and support

- Over 70 locations
- Over 30 network partners
